What You’ll Learn

Successful completion of this five-day, instructor-led course should enhance the student’s understanding of how to configure and manage Palo Alto Networks next-generation firewalls. The student should learn and get hands-on experience configuring, managing, and monitoring a firewall in a lab environment.

Who Needs to Attend

- Security Engineers
- Security Administrators
- Security Operations Specialists
- Security Analysts
- Network Engineers
- Support Staff

Prerequisites

Students must have a basic familiarity with networking concepts including routing,
switching, and IP addressing. Students also should be familiar with basic security concepts. Experience with other security technologies (IPS, proxy, and content filtering) is a plus.
