DOCKER FUNDAMENTALS + ENTERPRISE OPERATIONS COURSE BUNDLE

Course Code: 6022

Fast track your Docker journey.

The Docker Fundamentals + Enterprise Operations Bundle includes the full Docker for Enterprise Operations course as well as the prerequisite Docker Fundamentals course run back to back in a single intensive training experience. The Docker Fundamentals training course features the foundational concepts and practices of containerization on a single Docker node. The course offers learners the opportunity to assimilate basic container orchestration and how to scale Docker across multiple nodes in a simple swarm cluster. This course provides essential foundational knowledge for subsequent Docker courses. As the follow-on to the Docker Fundamentals course, Docker for Enterprise Operations is a role-based course is designed for Docker Operations teams to accelerate their Docker journey in the enterprise. The course covers in-depth core advanced features of Docker EE and best practices to apply these features at scale with enterprise workloads. Platform Availability: Linux, Windows (Fundamentals Only)

What You’ll Learn

By the end of this course successful learners will be able to:

- Assess the advantages of a containerized software development & deployment
- Use Docker engine features necessary for running containerized applications
- Utilize Swarm and Kubernetes orchestrators to deploy, maintain, and scale a distributed application
- Identify the key features of UCP and DTR
- Deploy applications on UCP using Swarm or Kubernetes, governed by secure, role-based authentication and authorization
- Establish a secure supply chain for containerized software development using DTR

Who Needs to Attend

IT professionals with an operations or system administration background desiring an intense and rapid onramp to Docker technologies
DOCKER FUNDAMENTALS + ENTERPRISE OPERATIONS COURSE BUNDLE
Course Code: 6022

CLASSROOM LIVE $3,250 CAD 5 days

Classroom Live Outline

Day 1
• Introducing Docker
• Containerization Fundamentals
• Creating Images
• Docker Volumes

Day 2
• Docker Networking Basics
• Introduction to Swarm Mode
• Introduction to Kubernetes
• Fundamentals Signature Assignment

Day 3
• Introduction to Docker Enterprise Edition
• Universal Control Plane
• User Management and Access Control
• UCP Orchestration
• Container Network Operations

Day 4
• Application Health and Readiness Checks
• Platform Security
• Docker Trusted Registry
• DTR Organizations and Teams
• Content Trust

Day 5
• Image Security Scanning
• Repository Automation
• Image Management
• Operations Signature Assignment
DOCKER FUNDAMENTALS + ENTERPRISE OPERATIONS COURSE BUNDLE

Virtual Classroom Live Outline

Day 1
- Introducing Docker
- Containerization Fundamentals
- Creating Images
- Docker Volumes

Day 2
- Docker Networking Basics
- Introduction to Swarm Mode
- Introduction to Kubernetes
- Fundamentals Signature Assignment

Day 3
- Introduction to Docker Enterprise Edition
- Universal Control Plane
- User Management and Access Control
- UCP Orchestration
- Container Network Operations

Day 4
- Application Health and Readiness Checks
- Platform Security
- Docker Trusted Registry
- DTR Organizations and Teams
- Content Trust

Day 5
Virtual Classroom Live Labs

The course features a variety of assessment instruments from practice quiz questions, lab exercises, to project based signature assignment for learners to practice and meet the learning objectives.
