

Course Code: 100439

This module explores the ways in which digital organizations and digital operating models function in high velocity environments. It will help aspiring organizations, to operate in a similar way to successful digitally-native organizations.

This course provides an understanding of the ways in which digital organizations and digital operating models function in high velocity environments, focusing on rapid delivery of products & services to obtain maximum value. The qualification will provide the candidate with an understanding of working practices such as Agile and Lean, and technical practices and technologies such as Cloud, Automation, and Automatic Testing. The course is based on the ITIL 4 best practice service value system featured in the latest guidelines.

As part of this course, all candidates will receive an exam voucher for the ITIL Specialist: High-Velocity IT exam through Peoplecert. As of February 1, 2022, all exams will be administered in an online proctored format only. Exams can be scheduled at www.peoplecert.org.

**CLASSROOM LIVE** 

\$2,495 USD

3 Day

### Classroom Live Outline

- Understand the following terms:
  - □ Digital organization

  - □ Digital transformation

  - □ Digital products
  - ☐ Digital technology
- Understand when the transformation to high velocity IT is desirable and feasible
- The five objectives associated with digital products to achieve:
  - Valuable investments strategically innovative and effective application of IT

  - Resilient operations highly resilient IT services and IT-related products
  - Co-created value effective interaction between service provider and consumer
  - Assured conformance to governance, risk and compliance (GRC) requirements
- Understand how high velocity IT relates to:
  - $\[ \]$  The four dimensions of service management
  - The ITIL service value system

  - $\[ \]$  The digital product lifecycle
- Understand the following concepts:

  - Safety culture

- Design thinking • Know how to use the following principles, models and concepts: ■ Ethics M Lean culture □ Design thinking To contribute to: Help get customers' jobs done □ Deal with uncertainty • Know how the service provider ensures valuable investments are achieved Know how to use the following practices to contribute to achieving valuable investments: □ Portfolio management Relationship management Know how the service provider ensures fast deployment is achieved Know how to use the following practices to contribute to achieving fast deployment: Architecture management ■ Business analysis □ Deployment management
- Know how the service provider ensures resilient operations are achieved
- Know how to use the following practices to contribute to achieving resilient operations:
  - Availability management

  - Monitoring and event management
- Know how the service provider ensures co-created value is achieved
- Know how to use the following practices to contribute to achieving co-created value with:
  - Relationship management

- Know how the service provider ensures assured conformance is achieved
- Know how to use the following practices to contribute to achieving assured conformance:
