

DASA DEVOPS PROFESSIONAL: ENABLE AND SCALE

Course Code: 100575

DASA DevOps Professional: Enable and Scale is designed to provide the core education necessary to put DevOps into practice.

This 2-day course builds upon the DevOps fundamentals. The key focus of DASA DevOps Professional: Enable and Scale is on the four skill areas that have been defined by DASA and are required for successful DevOps results. The course helps you know why the four skills: courage, teambuilding, leadership, and continuous improvement, are the necessary skills for a DevOps environment.

DASA DevOps Professional: Enable and Scale is designed to provide the core education necessary to put DevOps into practice. With the help of DevOps theory, pragmatic examples and exercises, and interactive group discussions and role plays, the course will help you understand how to apply the necessary skills to practice DevOps.

What You'll Learn

When you have completed this course, you will be able to:

- Explain the importance of DevOps culture and the aspects that can influence it.
- Explain why courage, team building, leadership, and continuous improvement are required in a DevOps environment.
- Explain why courage is essential to enable trust, honesty, and experimentation.
- Identify and evaluate different types of behavior in a DevOps environment.
- Recognize the signals indicating impediments and/or team dysfunctions.
- Describe how to form good DevOps teams.
- List the effects of happiness and motivation on team performance.
- Assess the maturity of DevOps teams.
- Identify how leaders encourage feedback and transparency.
- Discuss the factors that leaders can influence to build trust.
- Explain how and why leaders promote a “Safe to fail” environment.
- Analyze value streams to improve throughput and flow.
- Facilitate the tools for continuous improvement: structured problem-solving workshops, Story Mapping sessions, and retrospectives.
