

# PRELIMINARY EXAM IN CONTAINERS, KUBERNETES, & OPENSIFT (PE180)

Course Code: 100652

The Preliminary Exam in Containers, Kubernetes, & Openshift Exam (PE180) allows you to test and demonstrate the knowledge, skills, and abilities you learned in Introduction to Containers, Kubernetes, and Red Hat OpenShift (DO180)

The Preliminary Exam in Containers, Kubernetes, & Openshift Exam (PE180) allows you to test and demonstrate the knowledge, skills, and abilities you learned in [Introduction to Containers, Kubernetes, and Red Hat OpenShift \(DO180\)](#)

## What You'll Learn

The Preliminary Exam in Containers, Kubernetes, & OpenShift Exam (PE180) allows you to test and demonstrate the knowledge, skills, and abilities required to:

- Implement new container images by extending existing images.
- Manage images, including pulling and pushing images from a private registry.
- Manually run and link containers in a development environment.
- This exam is based on Podman and Red Hat® OpenShift® Container Platform 4.1.

## Who Needs to Attend

Administrators, architects, software developers, and anyone responsible for creating, managing, or using containers, including those who want to demonstrate their understanding of the key concepts and processes underlying the use of containers in modern software.

## Prerequisites

Red Hat encourages you to consider taking [Introduction to Containers, Kubernetes, and Red Hat OpenShift \(DO180\)](#) to help prepare.
