

VMWARE VSPHERE: FAST TRACK [V7]

Course Code: 100767

Explore the features that build a foundation for a truly scalable infrastructure.

This five-day, intensive course takes you from introductory to advanced VMware vSphere 7 management skills. Building on the installation and configuration content from our best-selling course, you will also develop advanced skills needed to manage and maintain a highly available and scalable virtual infrastructure. Through a mix of lecture and hands-on labs, you will install, configure and manage vSphere 7. You will explore the features that build a foundation for a truly scalable infrastructure and discuss when and where these features have the greatest effect. This course prepares you to administer a vSphere infrastructure for an organization of any size using vSphere 7, which includes VMware ESXi 7 and VMware vCenter Server 7.

What You'll Learn

System administration experience on Microsoft Windows or Linux operating systems.

Who Needs to Attend

- System administrators
- System engineers
