

# SHAREPOINT ONLINE: SITE OWNERS

Course Code: 100830

Learn how to create and Manage Sites.

Microsoft SharePoint is a collaboration platform that allows multiple users to share documents, exchange ideas, and work together. This course will help experienced SharePoint users learn how to create and manage sites.

## What You'll Learn

Learn how to create and manage sites. It will look at changes that have been made to the user interface, show users how to create new sites, libraries, lists, as well as change site settings and manage site options.

## Who Needs to Attend

SharePoint Online Site Users

## Prerequisites

Students should be comfortable using the keyboard, mouse, and a web browser. Previous experience with using SharePoint as a user and the completion of the SharePoint Online: For Site Users course is recommended.☒
