

# CCEF - UNDERSTANDING CISCO CONTACT CENTER FOUNDATIONS V1.0

Course Code: 101122

A 1-day overview of the Cisco Packaged Contact Center Enterprise and Unified Contact Center Enterprise solutions based on version 12.5.

Architectural overviews explore solution components, sizing and deployment considerations and key functionality and features. The course is intended for a broad audience including Business Decision Makers, Account Managers, Systems Engineers, Administrators, Application Specialists and Deployment Engineers seeking to understand functional and business applications of the CCE solution. For technical audiences this course is the foundation for additional courses required to deploy, configure, support and troubleshoot Cisco CCE solutions.

## What You'll Learn

Upon completing this course, students will be able to meet these objectives:

- Provide a high-level overview of the Cisco Contact Center portfolio
- List the key components within the PCCE architecture and their functions
- Describe how calls flow through PCCE using appropriate terms and naming conventions
- Introduce the tools used in the Configuration, Scripting, Reporting and Support of a PCCE deployment
- Identify advanced features available within the PCCE solution

## Who Needs to Attend

The target audience for this course is channel partners and field support personnel who are responsible for sales, implementation, or administration of a Cisco Unified Contact Center and VRU implementation in customer enterprise networks, specifically individuals filling these roles.

### **Primary audiences:**

- Deployment Engineers
- Technical Sales
- Account and Project Managers

### **Secondary audiences:**
