

# CCEAA - CISCO CONTACT CENTER ENTERPRISE ADVANCED ADMINISTRATION V1.0

Course Code: 101124

Cisco Contact Center Enterprise Advanced Administration (CCEAA).

This is a 3-day instructor-led course intended for system engineers and customers who will be deploying and administering advanced Packaged Contact Center Enterprise functionality.

This course is eligible for 30 Continuing Education Credits (ILT Modality).

## What You'll Learn

Upon completing this course, students will be able to meet these objectives:

- Describe the components, protocols, and call flow of PCCE by referencing the discovery platform to prepare for further scripting and configuration activities
- Run the CCE Bulk Import utility using the CCE Web Administration tool to develop a base line CCE configuration
- Configure an advanced VXML application implementing DB lookup functionality and digit collection using Call Studio and CCE Scripting tools in order to present call data collected from the caller to the Agent desktop
- Provision CCE to support CUCM calls to the Contact Center using UCM and CCE configuration tools. This will enable CCE Route Requests from CUCM to support contacts initiated from a CUCM managed device (Gateways, Phones, Line Side IVR Ports). This may be to enable non-Contact Center calls and calls handled by Agents whether existing or new
- Access and deploy custom gadgets to the Finesse desktop using the CCE Web Administration tool to further enhance functionality of the Finesse Agent Desktop
- Successfully deploy Mobile Agent in a CCE Environment
- Successfully deploy Post Call Survey in a CCE Environment

## Who Needs to Attend

Students with the below skills can attend the course:

- Basic knowledge of networking (Windows A/D, SQL) and components (servers, routers, switch) is helpful but not required.

- Working knowledge of Unified Communications Manager and voice gateways.
- Basic understanding of Cisco Unified Contact Center Enterprise architecture and operation.
