AGILE FOR PRODUCT OWNERS

Course Code: 2510

Leverage the Agile principles needed to become an empowered product owner, supportive partner of your agile development team, and bring Agile leadership to your organization.

The Agile for Product Owners training course will provide the knowledge to understand and apply the principles of agile. At the end of the course, participants will be able to effectively plan, prioritize and manage a product roadmap to deliver business value, understand the role of the Product Owner and the development team within an iterative process, and gain the skills necessary to become an agile leader to drive your organization to the next level.

What You'll Learn

- What Agile is
- How to form an Agile team
- The role of the Agile team product owner
- The five levels of detail of Agile planning

Who Needs to Attend

This course is designed for anyone who is considering the use of an Agile methodology for software development, including:

- Product Owners
- Product Managers
- Team Leadership
- Project Managers

AGILE FOR PRODUCT OWNERS

Course Code: 2510
