

AMA2576: COMMUNICATION AND INTERPERSONAL SKILLS FOR TECHNICAL PROFESSIONALS

Course Code: 2551

To achieve success, technical professionals must have strong and flexible interpersonal and communication skills in addition to their technical abilities.

Whether you're an IT professional, engineer, scientist, or researcher, communicating with others—both technical and nontechnical professionals—is an essential part of the job. This seminar will give you the interpersonal and communication tools you need to ensure mutual clarity and understanding when dealing with others, so you can maximize all your business interactions and achieve your critical goals.

What You'll Learn

- Recognize and manage differences between you and nontechnical professionals
- Deliver clear messages to non-technical professionals
- Apply verbal and nonverbal techniques to build shared understanding
- Strategically apply a communication system to enhance relationships and achieve performance goals
- Develop active listening skills that promote better work relationships
- Get your points across in diverse communication contexts
- Use influencing skills to complete projects faster and grow your reputation
- Be able to productively manage conflict

This Seminar Features Blended Learning
