

Global Knowledge.

EXAM PREP BUNDLE: 70-475: DESIGNING AND IMPLEMENTING BIG DATA ANALYTICS SOLUTIONS

Course Code: 5880

Validate your expertise and build your career with an Azure certification.

This Global Knowledge exclusive exam prep bundle has been designed to help you best prepare for a Microsoft Certified Professional (MCP) certification in Azure. You will receive an exam voucher for the 70-475: Designing and Implementing Big Data Analytics Solutions exam, as well as access to Microsoft Official Practice Tests, powered by Transcender. You will have 12 months exclusive access to over 140 practice questions, including access to pre and post assessments that help identify any information gaps and which areas to focus and practice on the most.

Who Needs to Attend

This exam is for data management professionals, data architects, data scientists, and data developers who design big data analytics solutions on Microsoft Azure. Candidates for this exam should have relevant work experience in big data analytics solutions.
