MICROSOFT PROJECT 2016 - LEVEL 2 & 3 / ADVANCED

Course Code: 6684

Learn to create and manage a project schedule using Microsoft® Project 2016.

Create and manage a project schedule using Microsoft® Project 2016.

What You'll Learn

Upon successful completion of this course, you will be able to manage an existing Microsoft Project 2016 project plan. You will:

- Update a project plan to reflect progress as you execute the project
- Monitor project progress in the project plan
- Adjust the project plan to control constraints
- Create project reports to share a project's status
- Customize project settings and share customizations with other projects

Who Needs to Attend

This course is designed for a person who has an understanding of project management concepts, is responsible for creating and modifying project plans, and needs a tool to manage those project plans.

Prerequisites

Basic project management knowledge and skills are required to be successful in this course. Additionally, you should be able to create a new project plan, manage time in a project plan, manage tasks in a project plan, manage resources in a project pan, and share a project plan.

MICROSOFT PROJECT 2016 - LEVEL 2 & 3 / ADVANCED

Course Code: 6684

CLASSROOM LIVE	$790 USD	2 Day

Classroom Live Outline

Day 1

Monitoring Project Progress

- View Project Progress
- Add Custom Fields
- Create Custom Tables
- Create Calculated Fields
- Create Concatenated Fields
- Creating Customized Date Functions Fields
