

ULTIMATE IT SKILLS COLLECTION

Course Code: 7950

Build your skills with 12 months of unlimited access to over 550 On-Demand courses covering the hottest topics in IT.

Your IT systems are not limited to a single vendor or topic, so why should your training? The Ultimate IT Skills Collection includes 12 months of unlimited access to over 550 On-Demand courses covering the latest technologies from Amazon Web Services, Microsoft, and topics like application development, big data, cloud computing, cybersecurity, networking and more. As new courses are released, you'll automatically gain access for the duration of your subscription.

Build the skills to become more effective in your job or prepare to get certified by completing as many courses as you would like or by viewing segments related to project-specific tasks — the choice is yours.

All courses include:

- Unlimited 12-month access
- Access to all course updates and additions during your subscription period
- HD-quality streaming videos that adapt to your connection speed and device

Enhanced courses also include:

- Hands-on live labs with integrated lab steps and ability to save and resume labs (most courses)
- Mentoring via chat, email, and phone
- Knowledge checks for comprehensive assessments
