

EXCELLENCE IN TECHNICAL CUSTOMER SERVICE

Course Code: 821244

In this course, you will apply important principles and skills you can use as a technical customer service representative.

As a provider of customer service in a technical field, you need to interact with customers to address their technical concerns. To do this effectively, you need to develop skills that will help you interact with customers in a positive and professional manner. In the Excellence in Technical Customer Service Training course, you will apply important principles and skills you can use as a technical customer service representative.

You will also need to respond to customer service queries via a remote system such as email or the telephone. In order to do this effectively, you will learn how to develop skills that will help you interact with customers in a positive and professional manner, as a remote customer service representative.

What You'll Learn

- Understand why profit is a primary objective of businesses and Support plays a role in contributing to profitability.
