

CERTIFIED SAFE® RELEASE TRAIN ENGINEER (RTE)

Course Code: 821322

Gain an in-depth understanding of the role and responsibilities of a Release Train Engineer (RTE) in the SAFe® enterprise.

In this three-day course you will gain an in-depth understanding of the role and responsibilities of a Release Train Engineer (RTE) in the SAFe® enterprise. You will learn how to facilitate and enable end-to-end value delivery through Agile Release Trains (ARTs) and value streams. You will also learn how to build a high-performing ART by becoming a servant leader and coach, and how to plan and execute a Program Increment (PI) planning event, the primary enabler of alignment throughout all levels of a SAFe organization. This course also prepares attendees for the SAFe Release Train Engineer (RTE) certification exam.

This course is brought to you by Global Knowledge in partnership with Cprime. Cprime is proud to be a Gold SPCT and Platform Level partner with Scaled Agile, the exclusive certifying body for the Scaled Agile Framework. Attending this class and passing the qualifying exam will earn you the SAFe Release Train Engineer (RTE) certification.

What You'll Learn

- Identify the effective RTE behaviors
- Prepare & Organize for PI Planning
- Facilitate PI Planning Team break outs and Plan review
- Facilitate Management Problem Solving
- Facilitate ART ROAM program risks
- Facilitate Confidence Vote enabling transparency
- Facilitate PI Planning across multiple locations, time zones and continents
- Effectively Execute Program Increment
- Fostering Relentless Improvement across the ART

Who Needs to Attend

- Release Train Engineers (RTEs)
- Program and project managers
- Leaders and managers
- Scrum Masters

- Agile coaches
- SAFe Program Consultants (SPCs)
