

MICROSOFT WORD 365 - PART 2

Course Code: 821476

This intermediate-level course is designed to help users who are familiar with Word's basic features to take their skills to the next level.

By the end of this course, users should be comfortable with using tools such as styles, macros, templates, mail merge, and building blocks to automate tasks. Students will also understand how to create complex documents using tables, charts, and various types of illustrations.

Most of the features Microsoft incorporated in [Office 2019](#) already exist in Office 365. Office 365 is a great solution for those looking for Office 2019 Training.

What You'll Learn

- Working with Tables and Charts
- Customizing Formats Using Styles and Themes
- Using Images in a Document
- Creating Custom Graphic Elements
- Inserting Content Using Quick Parts
- Using Templates
- Using Mail Merge
- Using Macros

Who Needs to Attend

This intermediate-level course is designed to help users who are familiar with Word's basic features to take their skills to the next level.

Prerequisites

This course assumes that the user has completed the first level of our Microsoft Word 365 courseware, or has equivalent knowledge of the following topics:

- Using the various parts of the Microsoft Word interface
- Getting help in Microsoft Word
- Creating, opening, and saving a basic document
- Applying formatting to text
- Inserting tables and graphical objects
- Controlling paragraph and page layout using the tools on the Home tab, Layout tab, and Page Setup dialog box
- Proofing a document for errors
- Customizing the Microsoft Word environment

A basic understanding of Microsoft Excel is helpful when completing the first lesson

of this course, but is not required.
