

MICROSOFT OUTLOOK 365: PART 2

Course Code: 821482

By the end of this course users should be comfortable in configuring advanced message options, using advanced message management options, managing activities using tasks and calendars, managing and sharing contacts, sharing your workspaces with others, managing Outlook data files and accounts, and managing email security.

Outlook is Microsoft's powerful and easy-to-use personal information management program. This new version of Outlook incorporates some new features and connectivity options in efforts to make managing your email and personal information easier than ever.

This course is intended to help all users get up to speed on the different features of Outlook and to become familiar with its more advanced selection of features. We will cover how to configure advanced message options, use advanced message management options, manage activities using tasks, and calendars, manage your contacts, share your workspaces with others, manage Outlook data files, and understand email security management.

Most of the features Microsoft incorporated in [Office 2019](#) already exist in Office 365. Office 365 is a great solution for those looking for Office 2019 Training.

What You'll Learn

- Configuring Advanced Message Options
- Advanced Message Management
- Advanced Calendar and Task Management
- Advanced Content Management
- Sharing Workspaces with Others
