

MICROSOFT PROJECT 365: PART 2

Course Code: 821484

By the end of this course, users should be comfortable managing the Project environment, working within task structures, generating views, and creating reports.

Project is one of the most popular scheduling and project management programs on the market. This version of Project will look and feel familiar to you if you have used Project 2016 or even Project 2013.

This course is intended to help all users get up to speed with Microsoft Project's advanced features, including task management, timelines, earned value calculation, custom reports, and custom views.

Most of the features Microsoft incorporated in [Office 2019](#) already exist in Office 365. Office 365 is a great solution for those looking for Office 2019 Training.

What You'll Learn

- Managing the Project Environment
- Managing Tasks Structures
- Generating Project Views
- Producing Project Reports

Who Needs to Attend
