TOGAF® EA TRAINING - COMBINED FOUNDATION AND PRACTITIONER

Course Code: 821629

Validate your ability to understand, analyze and apply the TOGAF Standard to developing, sustain, and use an Enterprise Architecture.

This TOGAF® EA Training – Foundation & Practitioner Combined Course is based on the latest version of TOGAF® Standard 10th Edition and will help you to prepare to take The Open Group Combined Part1 and Part 2 certification examination leading to the TOGAF® Enterprise Architecture Practitioner Certification.

The TOGAF® Enterprise Architecture Practitioner certification provides validation that an individual has the knowledge, comprehension, and ability to analyze and apply the TOGAF® Standard to develop, sustain, and use an Enterprise Architecture. This course introduces all of the topics defined as the Learning Outcomes upon which the TOGAF® Enterprise Architecture Practitioner Examination is based, but Candidates should be aware additional study outside of class is highly recommended to pass the exam.

This TOGAF® EA Training Combined Foundation & Practitioner course is accredited by The Open Group. Individuals who are TOGAF® 9 certified who wish to update their qualifications as part of their professional development, and demonstrate their ability to apply Enterprise Architecture should consider our TOGAF® EA Training Bridge Course.

TOGAF® is a registered trademark of The Open Group.

What You'll Learn

This course will cover all the Learning outcomes examinable at the Foundation and Practitioner level, including:

- The concepts of Enterprise Architecture and the TOGAF Standard
- The key terminology of the TOGAF standard
- The Architecture Development Method (ADM) cycle and the objectives of each phase, and how to adapt and scope the ADM for use
- The techniques available to support application of the ADM
- Applying the ADM, including use of iteration, partitioning, and application in a Digital enterprise
- How Architecture Governance contributes to architecture development
- Architecture content – the outputs produced while executing the ADM
- The context within which an Enterprise Architecture practitioner must operate

- How to apply the stakeholder management technique
- How to implement The Architecture and Development Method (ADM)
- How to implement Architecture change management
- How to manage the architecture requirements
- How to use The Open Group Library
- How to support the ADM work with applicable techniques
- Using architecture levels to organize the Architecture Landscape
- The Architecture Content Framework

Who Needs to Attend

- Individuals looking to achieve their TOGAF® Enterprise Architecture Practitioner certification
- Professionals who work within an organisation applying the TOGAF standard
- Enterprise Architect
- Solution Architect
- ERP/SAP Architect
- Data Architect
- Technical Architect
- Security Architect
- EA/ Governance Consultant
- Business Analyst

Prerequisites

There is no formal prerequisite for this course, although it will be beneficial to have foundational knowledge of general Enterprise Architecture. Individual who are TOGAF 9 Certified should consider our TOGAF® EA Training Bridge Course.
