TOGAF® EA TRAINING - FOUNDATION

Course Code: 821630

Develop a common language with TOGAF practitioners in your organization and gain a basic understanding of the TOGAF approach for Enterprise Architecture.

This TOGAF® EA Training Foundation Course introduces the latest version of TOGAF. It provides the basic knowledge and understanding of the Enterprise Architecture using the TOGAF approach, so that you can contribute to an architecture project or work with the results. It will help you to prepare to take The Open Group's examination leading to the TOGAF® Enterprise Architecture Foundation qualification, which is a prerequisite to becoming a TOGAF® Enterprise Architecture Practitioner. This course introduces all the topics defined as the Learning Outcomes upon which the TOGAF® Enterprise Architecture Foundation Examination is based, but Candidates should be aware additional study outside of class is highly recommended to pass the exam.

This TOGAF® EA Training Foundation course is accredited by The Open Group.

TOGAF® is a registered trademark of The Open Group.

What You'll Learn

This course covers the following topics:
- The concepts of Enterprise Architecture and the TOGAF Standard
- The key terminology of the TOGAF standard
- The Architecture Development Method (ADM) cycle and the objectives of each phase, and how to adapt and scope the ADM for use
- The techniques available to support application of the ADM
- Applying the ADM, including use of iteration, partitioning, and application in a Digital enterprise
- How Architecture Governance contributes to architecture development
- Architecture content – the outputs produced while executing the ADM
