

CITRIX VIRTUAL APPS AND DESKTOPS 7, APP LAYERING, AND WEM ADMINISTRATION (FAST TRACK) (CMB-318)

Course Code: 8273

Learn about configuring policies, printing and basic security features as well as more advanced topics including Workspace Environment Management (WEM) and App Layering.

This accelerated 5-day course is designed for experienced IT professionals to build the foundational administration aspects of installing, configuring and managing a Citrix Virtual Apps and Desktops 7 environment.

Learn about configuring policies, printing and basic security features as well as more advanced topics including Workspace Environment Management (WEM) and App Layering.

Gain an understanding of the solution architecture and communications, and the factors that contribute to a successful deployment. Also, learn how to monitor and troubleshoot the environment with Citrix Director and Citrix Analytics.

What You'll Learn

- How to install, configure, and manage a Citrix Virtual Apps and Desktops 7 site on-premises and on Citrix Cloud including how to migrate from on-premises to Citrix Cloud
- How to configure Workspace Environment Management to improve the end user environment and virtual resource consumption
- App Layering skills to create and administer OS, platform, application, elastic and user layers

Who Needs to Attend

Built for experienced IT Professionals new to Citrix Virtual Apps and Desktops 7 in an on-prem or Citrix Cloud environment looking to gain as much information as possible in the 5-day course.

In this course, you will learn the considerations and how-to setup a new Citrix Virtual Apps and Desktop site including advanced topics as WEM and App Layering

allowing fast-track preparation for the CCP-V certification.

Prerequisites

This course is taught at a much faster pace and experience with previous versions is recommended. Previous knowledge of legacy versions of Citrix Virtual Apps or Citrix Virtual Desktops is also beneficial due to the faster pace of this course.
