- Programming
- Application Development
- Web Development
- Entire Codecademy Catalog

Networking & IT Services

- Infrastructure & Operations
- IT Service Management
- DevOps
- CompTIA
- Security

Project Management

- IT Project Management
- Agile & Scrum

AI and Data

- Machine Learning and Artificial Intelligence (AI)
- Internet of Things
- Data Analytics & Big Data

Microsoft

- Microsoft 365
- Microsoft Teams
- Microsoft Office
- MS Learn

Business Skills & Productivity

- Business Skills
- Productivity & Collaboration Tools
- Leadership
- Digital Transformation
- Diversity, Equity & Inclusion

What You'll Learn

Aspire Journeys

Connect learning to development with guided paths mapping from where you are now to where you want to be.

- A clear starting point across the roles and responsibilities of tomorrow.
- Exercises for on-the-job applications to put what you've learned into practice.
- Verifiable, shareable, and portable digital badges so you can celebrate accomplishments along the way.
- A diverse array of assets for all learning styles

Video Courses

Codecademy includes almost 18,000 high quality and engaging video learning courses.

Labs & Challenge Lab

Challenge Labs are innovative scenario-based labs that allow you to sharpen skills in a safe, smart environment in topics such as AWS, Azure, Hybrid, and Multi-Cloud. They are available in three levels (Guided, Advanced, and Expert), and provide immediate validation of your skills as well as feedback and guidance if you get stuck while tackling a lab challenge.

Skills Benchmarks

Our Skills Benchmarks are designed to give you a proficiency score for a particular skill based upon a standard set of objectives defined by a subject matter expert. Skills Benchmarks are integrated within the Percipio Learning Management System which will give you specific content recommendations targeted to any questions you answered incorrectly. This helps to keep your focus on those things that you need to improve, rather than things you already know.

Certification Prep

Elevate your knowledge and skills with more than 100 practice tests, designed to skill-check and help you attain some of the most sought-after IT certifications such

as Azure Fundamentals, Azure Security Technologies, AWS Certified Solutions Architect Professional, AWS Certified Cloud Practitioner, CCSP, CISA, CEH, Security+, CCNA, ENCOR, PMP, ITIL, and PRINCE2.

eBooks and Audiobooks

The collection also includes access to the complete text of thousands of online books, book summaries, audiobooks, as well as research reports.

Who Needs to Attend

Codecademy Expert is the most hands-on and comprehensive technology skilling solution for current as well as aspiring IT professionals, as well as general business users looking to gain familiarity or mastery in a technology or business topic.
