ADVANCED CERTIFIED SCRUM PRODUCT OWNER® (A-CSPO®)

Course Code: 831254

Learn techniques and next-level product ownership skills from a senior Scrum Alliance trainer.

Our Advanced Certified Scrum Product Owner® (A-CSPO®) is an in-depth, two-day immersion into the world of Product Owner accountability.

By delving deeper into the accountability of a Product Owner, you will explore advanced product strategy, discovery, and validation techniques whilst finding better ways to gain greater empathy and understanding for your customers and users. All of this is made possible by applying innovative ways to work with the Product Backlog to focus on the right outcomes and how best to define value. Use these techniques to maximize the value of the work delivered by your scrum team.

Please note, there is no exam for the A-CSPO® certification.

This course is offered in partnership with Cprime Learning, a Scrum Alliance Registered Education Ally (REA).

What You'll Learn

In this course you will learn how to:
- Manage multiple business initiatives from competing stakeholders
- Clearly order and express Product Backlog items to maximize outcomes and minimize output
- Define a clear Product Vision that ensures your product remains focused on the features your customers and end users will use
- Communicate effectively with various stakeholder groups to achieve alignment
- Identify the crucial opportunities to reduce dependencies and avoid waste
- Define, communicate and validate a strategy that delivers business value
- Increase your credibility as a product expert and become recognized as a person who delivers real business results

Who Needs to Attend

Professionals who benefit from taking this course include:
- Individuals who have undertaken the Product Owner accountability for at least 12 months
- Product Managers
- Business Analysts

- IT Leadership (Managers/Directors/VPs/CIOs/CTOs)

Please note: This course has an Attendance and Virtual Camera Requirement

- Attendance is required throughout the duration of this course. Instructors will verify each student's attendance and participation to ensure course completion.
- Webcam usage is required by all students

Prerequisites

Students who take this course must:

- Already hold an active Certified Product Owner® (CSPO®) certification with Scrum Alliance®
- Complete all pre- or post-course work as deemed necessary by the instructor
- Validate at least 12 months of Product Owner work experience within the past five years
