# TOGAF® EA TRAINING BRIDGE

Course Code: 831451

TOGAF® EA Training Bridge course is based on the TOGAF Standard, 10th Edition, and recognizes the existing investment in TOGAF certification for individuals who have achieved the TOGAF 9 Certified qualification.

The TOGAF® EA Training Bridge Course is based on the latest version of TOGAF and will help you to prepare to take the TOGAF® Enterprise Architecture Bridge exam leading to the TOGAF® Enterprise Architecture Practitioner qualification. The TOGAF® Enterprise Architecture Practitioner certification provides validation that an individual has the knowledge, comprehension, and ability to analyze and apply the TOGAF® Standard to developing, sustaining, and using an Enterprise Architecture.

The learning objectives at this level focus on application and analysis in addition to knowledge and comprehension.

Candidates should be aware that this course includes all topics examinable but does not address these in detail and additional study is required. This course includes a TOGAF EA Bridge exam voucher.

This TOGAF® EA Training Bridge course is accredited by The Open Group.

TOGAF® is a registered trademark of The Open Group.

## What You'll Learn

By the end of this course delegates will have gained an understanding of:

- The key changes in the TOGAF Standard
- The context within which an Enterprise Architecture practitioner must operate
- How to implement The Architecture and Development Method (ADM)
- How to implement Architecture change management
- How to apply the stakeholder management technique
- How to support the ADM work

## Who Needs to Attend

Individuals who are TOGAF 9 Certified who wish to leverage their existing knowledge and update their qualifications.

## Prerequisites

Delegates must be TOGAF 9 certified
