DELL OPENMANAGE ENTERPRISE FUNDAMENTALS FEATURES IMPLEMENTATION ADMINISTRATION

Course Code: 833003

Learn the functions and features of OpenManage Enterprise.

The OpenManage Enterprise course is a baseline course that provides a learner with a good understanding of the functions and features of OpenManage Enterprise.

Lecture and lab activities cover the following topics for students:

Installation/Configuration, navigating/using the web interface, describe and use the Discovery and Inventory process, manage devices, and perform tasks using OpenManage Enterprise. Students learn about and use profiles and configuration templates. The course covers the integration of OME adaptors with secure connect gateway. Checklists have been incorporated to provide students with a "what to look for" when issues arise.

What You'll Learn

Upon successful completion of this course, participants should be able to:

- Identify the features and functions of OpenManage Enterprise.
- Describe the deployment and configuration process.
- Discover devices in OpenManage Enterprise.
- Discuss the administration features of OpenManage Enterprise.
- Describe the deployment template and baseline process.

Who Needs to Attend

This course is intended for anyone who wants to learn about and manage Dell EMC devices using OpenManage Enterprise.

Prerequisites

Secure Connect Gateway

DELL OPENMANAGE ENTERPRISE FUNDAMENTALS FEATURES IMPLEMENTATION ADMINISTRATION

VIRTUAL CLASSROOM LIVE	$2,080 CAD	2 Day

Virtual Classroom Live Outline

Module 1 : Product Overview

- Introduction
- Product Overview

Module 2 : Deployment and Configuration

- Introduction
- Deployment
- Upgrading
- Configuration
- Programmable Appliance Deployment
- Initial Console Launch
- Console Navigation
- Deployment and Configuration: Troubleshooting Checklist

Module 3 : Settings

- Application Settings

Module 4

- Discovery
- Device Discovery Wizard
- Single Device Discovery
- Multiple Device Discovery
- Import Discovery Range
- Excluding Ranges
- Chassis Device Discovery
- Multiple Management URL's
- Discovery: Troubleshooting Checklist

Module 5 : Managing

- Onboarding and Inventory
- Jobs
- Groups
- Users and Roles
- Firmware Updates
- Driver Updates
- Alerts
- Reports
- Managing: Troubleshooting Checklist

Module : 6 : Backup, Restore and Migrate

- Backup and Restore
- Backup and Restore States
- Create a Backup
- Restore a Backup
- Restore Readiness Report
- Migration
- Migration States
- Perform a Migration

Module: 7: Deployment Templates

- Deployment Templates
- VLAN Management
- IOA Deployment Templates
- Virtual Identities
- Baseline Compliance
- Auto Deploy
- Profiles
- Deployment Templates: Troubleshooting Checklist

Module: 8 : Secure Connect Gateway

- Product Overview
- Adding an OpenManage Enterprise adapter

Synchronize Adapters In addition to lecture and demonstrations, this course includes labs designed to allow practical experience for the participant.
