

AI FOR BUSINESS PRODUCTIVITY: ASSISTANTS, AGENTS, AND AUTOMATION

Course Code: 834136

In this complimentary 2-hour session students will learn how organizations progress through different stages of Business AI Maturity by creating intelligent assistants, integrating AI into workflows, and leveraging agentic systems to improve productivity and decision-making. Through projects such as an AI Project Manager Assistant, Copilot business feature demonstrations, and a Productivity Music Maker application, learners will understand what AI agents are, how they operate autonomously, and how businesses can use them to transform operations, collaboration, and innovation.

Topics covered include:

- Business AI Maturity
- Creating an Assistant
- AI Project Manager Assistant
- Copilot Business Features
- Productivity
- What's an Agent?

Schedule : June 10 from 9-11 AM EST
