

ALL ACCESS IT SKILLS SUBSCRIPTION

Course Code: 8373

Exclusive – Build your skills, pursue multiple certifications and more with 12 months of unlimited access to over 1,000 instructor-led and on-demand courses covering the critical topics in IT at an unbelievable price.

The All Access IT Skills Subscription includes 12 months of unlimited access to over 1,000 instructor-led and on-demand courses covering the most critical:

- Technology skills from tech providers such as Microsoft, CompTIA and Oracle
- Topics including analytics and data management, application development, cloud computing, cybersecurity, IT best practices, networking and programming
- 80+ certification paths, including seven of the 15 top-paying certifications (CISM, CISSP, CEH, PMP®, Network+, Security+, ITIL®)

Create your career path, the way you want it

Everyone's career path is different. Maybe you don't want to be a CIO. Perhaps you want to be the best Senior Network Architect, the go-to Microsoft Azure pro, or the lead project manager who keeps everyone on schedule. These are only some of the hundreds of center-stage-creating, job-defining opportunities All Access provides. This subscription exists to help you achieve your organization and career goals.

Unlimited access for the price of two courses

Yeah, you read that right. For the price of just over two courses, you receive unlimited access to instructor-led classroom and on-demand courses. For critical project or new job skills, interact face-to-face with subject matter experts in a classroom setting, or join instructor-led online training from the location of your choice. If you're interested in a new technology or need a skills refresher, our On-Demand courses are ready when you are.

Or, create your own blended learning experience by combining on-demand and live training.

Why buy this subscription?

Our All Access subscription provides:

- Unlimited access to Global Knowledge's depth and breadth of technology courses that are authorized by technology providers and industry experts
- Freedom and flexibility to choose from classroom, virtual classroom and

- on-demand delivery formats
- Access to award-winning instructors and subject matter experts
- Exclusive access to our customer success team that is ready to help with training questions and learning paths

How is the All-Access subscription different from other subscriptions?

Other subscriptions restrict your skills development in ways such as:

- Limited range of training courses
- Content that may not be authorized by technology providers or industry experts
- Only one type of delivery format available (e.g., only on-demand)
- Fee-based mentor support or learning path guidance

What You'll Learn

You'll learn to be #ITAF.

Technology doesn't stop and neither can you...if you want to be your best. Rock guitar legends Jimmy Page, Eddie Van Halen and Eric Clapton didn't wake up with crazy guitar skills. They're always practicing, training and learning.

With your All Access IT Skills Subscription you can...

Pursue 80+ certifications such as:

- ITIL® 4 Foundations ([#7 top-paying certification](#))
- Certified Ethical Hacker (#11 top-paying certification)
- CISSP - Certified Information Systems Security Professional (#10 top-paying certification)
- CompTIA A+, IT Fundamentals, Network+ (#14 top-paying cert) and Security+ (#15 top-paying cert) certifications
- Project Management Professional (PMP®) (#2 top-paying certification)

[View certification list](#)

- Troubleshooting TCP/IP Networks with Wireshark

[View all instructor-led and On-Demand courses.](#)

And as new courses are released, you'll automatically gain access for the duration of your subscription.

Who Needs to Attend

Professionals who want to stand out in the skills-driven tech economy, excel at their job, and position themselves to get paid serious cash. In other words, become #ITAF.

Specifically, it's for:

- IT specialists
- Network administrators
- Network engineers
- Software engineers
- Systems administrators
- Systems engineers
- Professionals tired of going back and forth with procurement for each training request. With All Access, it's one request, one bill.

Prerequisites

There are two:

1. The All Access IT Skills Subscription is for IT professionals with varying experience levels – from those starting in a garage on their own to those with advanced skills leading organizations.
2. Most importantly, you're motivated by the fact that your career and job performance are in your control. Go make it happen for yourself.

If either of these apply to you, buy this subscription.
