PALO ALTO NETWORKS: PANORAMA NGFW MANAGEMENT

Course Code: 842003

Designed to help students gain in-depth knowledge about configuring and managing Next-Generation Firewalls using the Palo Alto Networks Panorama management server.

The Palo Alto Networks Panorama: NGFW Management course is two days of instructor-led training that should help you to:

- Learn how to configure and manage the next-generation Panorama management server
- Gain experience configuring templates (including template variables) and device groups
- Gain experience with administration, log collection, and logging and reporting
- Become familiar with planning and design considerations for Panorama deployment

What You'll Learn

- This course should help students gain in-depth knowledge about configuring and managing a Palo Alto Networks Panorama management server. Administrators that complete this course should become familiar with the Panorama management server's role in managing and securing the overall network.
- Network professionals will be shown how to use Panorama aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks next-generation firewalls.

Who Needs to Attend

- This course is intended for Security Engineers and Architects, Security Administrators, Security Operations Specialists, Security Analysts.

Prerequisites

- Participants should complete the Firewall: Configuration and Management class.
- Participants must be familiar with Palo Alto Networks next-generation firewall management and basic networking concepts, including routing and IP addressing.
