

PALO ALTO NETWORKS: PRISMA ACCESS SSE: CONFIGURATION AND DEPLOYMENT

Course Code: 842006

Enhance your understanding of how to better protect your applications, remote networks, and mobile users using a Prisma Access Secure Access Service Edge (SASE) implementation.

The Prisma Access SSE: Configuration and Deployment course introduces you to the operational deployment of Prisma Access Secure Access Service Edge (SASE) and how it helps organizations embrace the needs of the modern workforce by providing network connectivity and network security services from the cloud.

What You'll Learn

This course will enable you to deploy, configure, maintain, and troubleshoot Prisma Access using Strata Cloud Manager. The course is intended for professionals in cybersecurity and public-cloud security, as well as general network-security professionals who want to learn how to secure remote networks and mobile users.

Who Needs to Attend

This course is intended for Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, and Network Engineers.

Prerequisites

Participants should have a basic knowledge of cloud computing and the public cloud and experience with networking concepts, including routing, switching, and IP addressing.

In addition, participants should complete the following pre-requisites to be optimally prepared for the course:

- Prisma Access (Strata Cloud Manager) digital learning paths
- (Recommended) Firewall Essentials: Configuration and Management or equivalent experience.

VIRTUAL CLASSROOM LIVE

\$4,000 USD

4 Day

Virtual Classroom Live Outline

Course Modules

1. Prisma SASE
2. Prisma Access Architecture
3. Strata Cloud Manager
4. Licensing and Activation
5. Service Connections
6. Remote Networks
7. Mobile Users
8. Prisma Access Explicit Proxy
9. ZTNA Connector
10. Prisma Access Browser
11. Autonomous Digital Experience Management (ADEM)
