

PALO ALTO NETWORKS: PRISMA BROWSER

Course Code: 842012

The Prisma Browser course introduces you to the operational deployment of Prisma Browser and how it helps organizations meet the needs of the modern workforce by providing cloud-based network connectivity and security services.

What You'll Learn

Successful completion of this one-day, instructor-led course will help enhance your understanding of how to secure the internet and private applications better using a secure enterprise browser. In a lab environment, you will get hands-on experience configuring, managing, and troubleshooting Prisma Access Browser via Strata Cloud Manager.

Who Needs to Attend

This course is intended for Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, and Network Engineers.

Prerequisites

Participants should have a basic knowledge of cloud computing and public cloud, as well as experience with networking concepts, including routing, switching, and IP addressing.

In addition, participants should complete the following prerequisites to be optimally prepared for the course:

- Prisma Access (Strata Cloud Manager) digital learning paths
- (Recommended) Firewall Essentials: Configuration and Management or equivalent experience.
