

MACOS 100: INTRODUCTION TO MACOS SEQUOIA

Course Code: 844000

Learn this hands - on class designed to help beginning Mac users and transitioning Windows users become more familiar in using the macOS.

macOS 100: Introduction to macOS Sequoia is a hands- on class designed to help beginning Mac users and transitioning Windows users become more familiar in using the macOS.

What You'll Learn

Upon completion of the macOS 100: Introduction to macOS Sequoia course, students will be able to:

- Know the foundations of macOS Sequoia
- Efficient window and application management
- System customization
- Configure user accounts
- Manage files

Who Needs to Attend

This class is designed for those new to the macOS Sequoia platform who need to obtain the skills to support other macOS users. This could include entry level IT personnel in businesses that use macOS systems for general productivity or creative design, service technicians who support macOS customers, and technical coordinators or power users who manage networks of macOS systems for their organization – such as teachers and technology specialists who manage a classroom network or computer labs.

Prerequisites

Practical working knowledge of computers

MACOS 100: INTRODUCTION TO MACOS SEQUOIA

Course Code: 844000

VIRTUAL CLASSROOM LIVE

\$775 CAD

7 Day

Virtual Classroom Live Outline
