

MAC INTEGRATION BASICS TAHOE

Course Code: 844001

Organizations are increasingly integrating Mac computers into Windows or other standards-based network environments. But users and the IT professionals who support them can relax because Mac integration is easy.

What You'll Learn

Students will learn to,

- Integrate a Mac into a Windows network environment.
- Configure a Mac to work with Active Directory.
- Take advantage of network services: File Sharing, Printing, Instant Messaging, E-mail, Calendars, and Contacts.
- Understanding macOS security.
- Migrate data from a Windows computer to a Mac.
- Back up data.
- Run Windows programs on a Mac.

Who Needs to Attend

- Users who bring a Mac into organizations that predominantly use the Microsoft Windows operating system and Windows Server Essentials
- Users who replace a Windows computer with a Mac
- IT professionals who support Mac users in organizations that predominantly use Windows and Windows Server Essentials

Prerequisites

To have the best learning experience with this course, you should understand how to use a Mac, a Windows computer, and computer peripherals.

MAC INTEGRATION BASICS TAHOE

Course Code: 844001

VIRTUAL CLASSROOM LIVE

\$595 USD

1 Day

Virtual Classroom Live Outline
