

ACTIVE LEADERSHIP FOR IT PROFESSIONALS

Course Code: 8944

Effectively coach, empower and lead individuals and teams to higher levels of performance

Intense competition coupled with flattened hierarchies, multi-dimensional teams and a diverse working environment characterize today's business climate. This reality requires an equally diverse set of leadership practices and skills for anyone responsible for getting results with and through others. Recent studies confirm the leader is the prime factor for creating a productive work environment and contributing to higher employee retention.

The Active Leadership for IT Professionals program provides the concepts and the practices of Leadership in a high impact learning-environment to help leaders effectively coach, empower and lead individuals and teams to higher levels of performance.

This course made CIO.com's "[10 IT leadership development programs to help you level up](#)" list.

What You'll Learn

- Assess personal leadership behaviours and attitudes that impact the performance of others
- Plan and deliver clear, concise communication to direct, guide and engage employees
- Understand what people need in order to change a behaviour or practice
- Determine how ability and motivation impact performance and outcomes, regardless of the task
- Explore three different leadership styles and when they should be used to maximize the performance of others
- Match the appropriate leadership style to individuals and specific tasks
- Explore how the foundational principles of coaching impact coaching results
- Differentiate between "coaching for job" versus "coaching for career"
- Provide behavioural feedback that recognizes and rewards employee performance

- Use a consistent approach to providing feedback that reinforces desired behaviors and helps achieve performance improvements
- Assess performance gaps and improve task performance
- Coach, reinforce and create a motivational climate for employee growth and retention
- Create a personal development plan based on assessed leadership strengths and development needs

Who Needs to Attend

IT Managers, IT Professionals and Business Managers with team members or charged with leading teams.

Prerequisites

Pre-work is required for this class, including two assessments:

- Active Leadership Profile (self and others assessment)
- Personal Needs Assessment (self assessment)

A three week timeline is necessary to complete the pre-work and assessments prior to attending class.
