

# QRADAR SOAR: FOUNDATIONS

Course Code: 900082

Learn about the IBM Security® QRadar® SOAR architecture, and how to position the product in your company's security architecture design.

In this course, you learn about the IBM Security® QRadar® SOAR architecture, and how to position the product in your company's security architecture design. You gain hands-on experience with the SOAR interface, by investigating and managing cases and users with the SOAR Breach Response module, playbooks, and email integration.

## What You'll Learn

In this course, you learn about the following topics:

- QRadar SOAR architectural patterns
- Install the product, and configure license and access
- Review the SOAR Console
- Manage cases
- Utilize the concept of artifacts
- Utilize case management capabilities
- Integrate email system for users and case management
- Focus on the Breach Response module
- Gain hands-on experience with the SOAR platform
- Design playbooks
- Integrate IBM and third-party solutions with SOAR

## Who Needs to Attend

- Security operations center (SOC) Administrator
- SOC Analyst
- Security Analyst
- Incident Responder
- Managed Service Security Provider (MSSP)
