

# RED HAT CERTIFIED OPENSIFT APPLICATION DEVELOPER EXAM (EX288)

Course Code: 9801

Explore the Red Hat certified OpenShift application developer exam (EX288)

The Red Hat Certified OpenShift Application Developer exam (EX288) tests your ability to deploy existing applications in a Red Hat® OpenShift® Container Platform environment.

By passing this exam, you become a Red Hat Certified Specialist in OpenShift Application Development, which also counts toward becoming a Red Hat Certified Architect (RHCA®).

Objectives listed for this exam are based on the most recent Red Hat product version available.

The skills and knowledge associated with this exam can be applied to both self-managed editions of OpenShift as well as managed services editions like Red Hat OpenShift on AWS (ROSA) and Azure Red Hat OpenShift.

## What You'll Learn

By passing this exam, you become a Red Hat Certified Specialist in OpenShift Application Development, which also counts toward becoming a Red Hat Certified Architect (RHCA).

## Who Needs to Attend

- Application developers in a DevOps role who are responsible for managing a Red Hat OpenShift Container Platform Kubernetes environment
- Application developers in a DevOps role who are responsible for implementing a Red Hat OpenShift Container Platform Kubernetes environment
- Application developers who are responsible for creating containerized applications or converting existing applications into containerized applications
- Site reliability engineers

## Prerequisites

- Prior to taking this exam, you should possess a basic understanding of container technology. Some programming experience is strongly recommended but not required. The ability to use documentation to learn how to use unfamiliar or new applications is required.
- Take our free assessment to find the course that best supports your preparation for this exam.
- Completion of Red Hat OpenShift Development II: Containerizing Applications (DO288) is strongly encouraged but not required.
- The Red Hat Certified Specialist in Containers and Kubernetes credential is strongly encouraged but not required.
